

I urge you not to broadcast the Carlton Sherwood's anti-Kerry piece. His charges against Kerry are false. Kerry was merely reporting what eye witnesses and participants had testified to. As an entertainer in Vietnam in 1969, I can attest to the fact that atrocities were being committed and it was well-known. It was also known that troops were using drugs compromising their performances. TV and radio stations continually ran PSAs urging the troops to stop their drug use. Undoubtedly, this substance abuse helped fuel those atrocities. Thank you for your consideration.

Jan McClellan, Vietnam Entertainers Against the War
